An overview on Shiptech Logistics

Shiptech Logistics, founded in 2016 by **George Constantinou**, was created to expand and enhance the logistics capabilities of Shiptech Petroleum SA (Pty), an independent fuel trading company. As a dedicated logistics partner, Shiptech Logistics ensures the reliable, secure, and precise transportation of Shiptech Petroleum's products.

"Shiptech's growth is directly proportional to the growth of our business partners. Partnership is the key word in our business - we invest ourselves and our resources as an integral and focused role in the operations of our partners, and the results speak for themselves."

- Managing Director

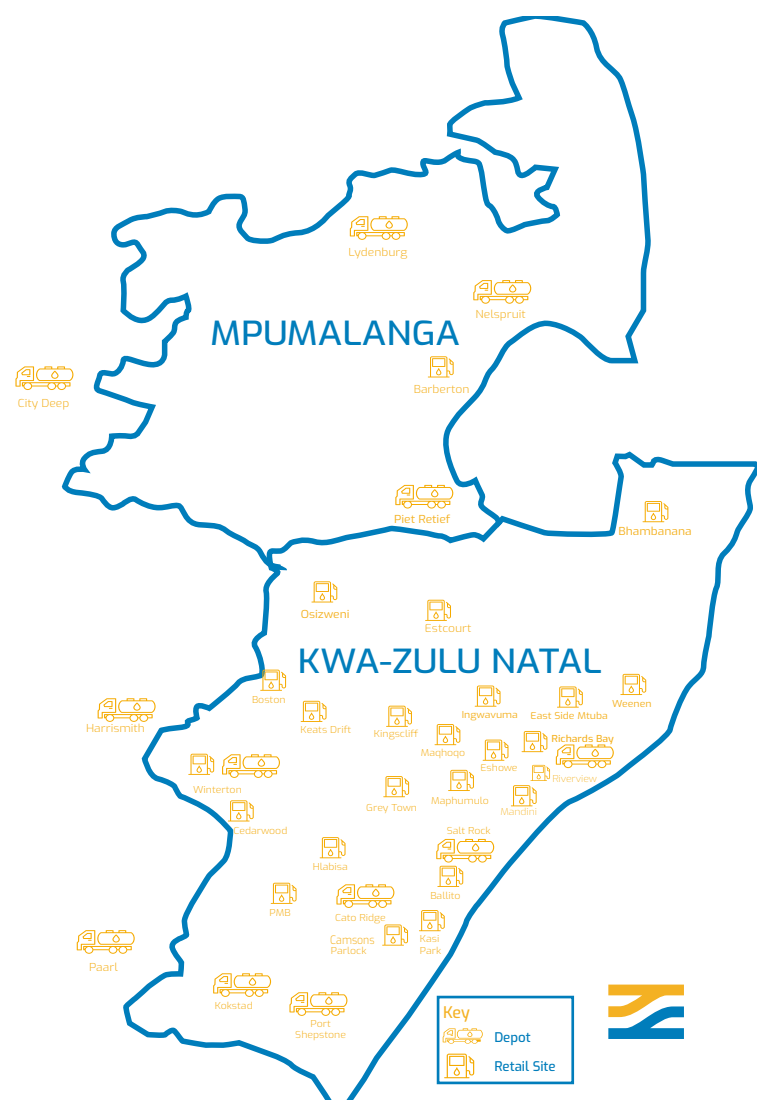

228 917 000 litres

Each year, Shiptech Logistics manages the movement of approximately **228 917 000 litres** of petroleum products across the country, solidifying its role as a trusted partner in the fuel logistics industry.

Today, Shiptech Logistics is led by Andre Honsh-Raj, overseeing operations and fostering client relationships. Under his leadership, the company has achieved high operational efficiency and a strong commitment to client service, emphasizing precision, health, safety, quality, and reliability in petroleum deliveries.

Shiptech Logistics exceeds industry standards and employs innovative automation strategies for effective market share expansion. Their focus on sustainability and adaptability prepares them for future challenges. The company prioritizes long-term client partnerships by offering tailored solutions and maintaining open communication to build trust and satisfaction.

Core Services

Shiptech Logistics specializes in the efficient transportation and delivery of petroleum products. With a highly skilled team of coordinators and planners, the company **oversees a fleet of 48 vehicles operating nationwide**, supporting Shiptech Petroleum's commitment to timely and safe fuel distribution. The team includes a dedicated Health and Safety Risk Manager to maintain rigorous standards in compliance and safety across operations.

Did you know that Shiptech Logistics is **RTMS approved**?

RTMS is an industry-led, government-supported, voluntary, self-regulation scheme that encourages consignees, consignors & road transport operators to implement a management system that demonstrates compliance with Road Traffic Regulations and contributes to preserving road infrastructure, improving road safety & increasing productivity.

The **RTMS National Standard (SANS 1395-1)** has been published by the **South Africa Bureau of Standards (SABS)** and compliance is assessed by **SANAS accredited 3rd party auditors**.
